REMA 75 YEARS HOISTING & LIFTING Work made easy.

KPL Safety retaining rope 11mm

Product information

The KPL safety retaing rope provides vertical or near-vertical fall protection. The rope is equipped with a single spliced eye and a heat-shrink sleeve. It is a static rope that is highly abrasion-resistant, has low stretch, offers maximum strength, is durable, and has a long service life.

Features

- The rope is connected to the harness using a mobile fall arrester (KRG11).

Standard delivery

- A loop.
