

## CBKN block lifting clamps

### Product information

#### Properties

- 2 special synthetic anti-friction pads to guarantee non-marking.
- Lightweight design and easy to use.
- Tough quality heavy duty body.
- Maintenance-friendly, easy to exchange parts which are available upon request.

#### Application

- For vertical lifting and transporting of all plates, blocks and structures with parallel sides without marking, scratching and or damaging the material surface.
- Perfect for lifting materials such as (stainless) steel, aluminum, nature stone, composite, painted materials, wood, glass, plastic, etc.
- The clamp is locked in the open position.

**Marking:** According to standard, CE-marked

**Standard:** EN 13155, EN 12100

**Warning:** The surface roughness of the material to be hoisted must have a minimum roughness of 25 µm or more rough.
