

**BVD1**

**BVD2**

## BVD1 and BVD2 Shock absorbers

### Product information

High-quality webbing lanyards with integrated shock absorber. These lanyards must be used when the worker operates from a static position, connected to a fixed anchorage point. The shock-absorbing pack activates in the event of a fall, reducing the impact force on the user. This webbing energy absorber must be used together with a safety harness.

#### Features

- Length: 1.4 m.
- Maximum load: 140 kg.
- Equipped with RFID NFC Ø 25 mm.
