

Rema radio remote control for cranes, hoists and winches

Informations du produit

The Rema radio remote control system provides safe and user-friendly operation from a distance, ideal for lifting and hoisting applications. With external certification SIL2, PLd safety level and a 2.4 GHz frequency (worldwide license-free), it complies with the highest safety standards. The receiver is easy to install and ready for immediate use. Replacing a transmitter is quick and requires no opening, ensuring flexibility and convenience. Wireless control increases mobility and eliminates the risk of cable damage, improving safety, visibility, and efficiency.

Features

- Compact, robust, and waterproof design (IP65)
- Equipped with an independently PLd-certified emergency stop
- Operating range of 200+ meters in open area
- Single and dual speed control
- Operating temperature: -20 °C to +55 °C

Versions

- Lifting/lowering
- Lifting/lowering + trolley travel
- Lifting/lowering + trolley and crane travel

Standard delivery

- 1 handheld transmitter incl. battery holder and 3 disposable 1.5 V (AAA) batteries
- 1 receiver 12-24 V AC/DC or 48-230 V AC
- 1 protective foil adapted to the application

Options

- Charging set: table charger, 2 rechargeable batteries, and adapt. ... [En savoir plus](#)
